How to Read Model Entries

Moon (Far Side)

Solid: 1
3D-Scan

Elephant w/ Skeleton

Dissectible (Interior) : 50
Modeled

Fraction Bars

Dissectible (Exterior): 51
Modeled

Solid: The model is one piece. It cannot be taken apart with the dissect tool.

Dissectible: The model is made up of multiple pieces. The model can be taken apart with the dissect tool.

Exterior: The model's dissectible pieces reflect exterior geometry.

Interior: The model's dissectible pieces reflect interior and exterior geometry.

3D-Scan: The model was created from a 3D-scan of an object.

Modeled: The model was created with modeling software.

Number: The number at the end of the "Solid" or "Dissectible" line is the number of pieces associated with the model.
