

TECH SPECS

zSpace for Education

zSpace Real World VR enriches lives by changing the way people learn, explore, connect, and play.

All Science Areas and Art Too

Physical Science, Life Science, Earth and Space Science, and the Social Sciences are included in the zSpace curriculum, as are diverse learning experiences through the applications. The zSpace creative application connects zSpace to art, allowing students to create in 3D.

Lesson Plans and Standards Alignment

For all applications in the zSpace Education Package, zSpace provides lesson plans and standards aligned activities.

Education Software

- zSpace Studio
- zSpace Newton's Park
- zSpace Franklin's Lab
- CyberScience 3D
- Corinth
- Leopoldy
- Designmate
- zView
