

Teaching with zSpace Experiences

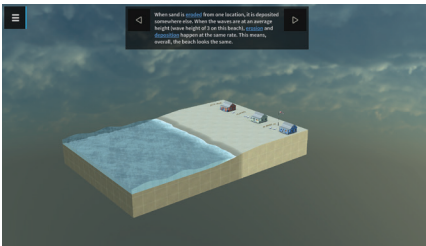

You can find all zSpace Experiences on zCentral. Select the zCentral shortcut on your zSpace or visit go.zspace.com on any computer. Choose “Experiences” under “Content Types” filter to browse all the Experiences.

Guided Experiences

Guided Experiences include prompt text to guide the learner and notebooks to record answers.

Activity plans are available at zspace.com/edu.
Question sheets - for the notebooks - are also available.

Remind learners that they can select highlighted words to get definitions.

Learners can move back and forth through the prompts.

At the end of the guided experience, learners can

- copy the notebook to the clipboard and paste into other applications
- export the notebook to a PDF and submit
- open a summary view of the notebook and review

In the settings menu , answering questions can be set to optional.

Open-ended Sandbox Experiences

Sandbox Experiences provide the opportunity for learners to explore the content and connect to different learning objectives. The names of Sandbox Experiences begin with “Exploring ...”.

Activity plans are available at zspace.com/edu.
Note: Multiple activities can be available for one sandbox.

Sandboxes can include multiple scenes - assessed by selecting icons at the top (and bottom) of the screen.
