

How to run Surfwisely on safari browsers

- 1- Open Safari web browser.
- 2- Click on "Safari" in the top menu bar.
- 3- A dropdown menu will appear, click on "Settings..."

- 4- This will open the "Settings" window.
- 5- In the "Settings" window, navigate to the "Privacy" tab.
- 6- Here, you will see the option "Prevent cross-site tracking".
- 7- Uncheck this option to disable cross-site tracking.
- 8- Then restart safari and navigate to <https://portal.surfwisely.com>

Enabling cookies is essential for Surfswisely to function properly. The cookies store your permissions within the app, allowing us to retain your authorization information. If the option to prevent cross-site tracking is checked, Surfswisely won't be able to store your authorization, resulting in the app not working as intended. So, please ensure that the option to prevent cross-site tracking is disabled to ensure a smooth and uninterrupted experience while using Surfswisely.
