

Canine Anatomy VR Trainer by GTAFE

REFERENCE SHEET - Launch Code AP38

The screenshot displays the Canine Anatomy VR Trainer interface. At the top center is the GTAFE logo. On the left, there are navigation icons for Heart, Male, and Female. A detailed view of the heart is shown in an inset window, labeled "Detailed view of the heart". A text box provides information on the selected body part, "latissimus dorsi (right)", with a description: "The canine latissimus dorsi is very wide. It begins at the superior spine of scapula, lumbodorsal fascia and the last two ribs. Its inferior portion is fused with the cutaneous muscle. Finally it ends at the". Below this is a menu of body systems: Integumentary System, Muscular System, Respiratory System, Cardiovascular System, Endocrine System, Skeleton System, Digestive System, Urinary System, Lymphatic System, and Nervous System. On the right, a stylus is shown with controls for Move, Dissect, and Resize. A vertical toolbar on the far right includes icons for zView, Naked Eye 3D, Exit, Settings, Initiate, Return, Hide, Hide Unselected, and Previous.
