

Visible Body Courseware

Welcome to Visible Body Courseware!

With a Visible Body Courseware account, you can:

- Complete [lesson assignments](#) and [graded quizzes](#).
- [Check your grades in the Gradebook.](#)
- [Explore Visible Body's web and mobile apps in the My Apps section.](#)

Visible Body Courseware

Complete Courseware assignments and quizzes from your computer's browser. Go to <https://courseware.visiblebody.com>. On the Assignments page, there will be a red alert in the menu and a red dot next to each assignment or quiz that needs to be completed.

The screenshot shows the 'Intro to A&P' course page. On the left is a navigation menu with 'Intro to A&P' at the top, followed by 'My Courses', 'Assignments' (with a red notification dot), 'Course Resources', 'Gradebook', and 'Announcements'. Below these is a section for 'My Apps'. The main content area is titled 'Welcome to the Assignments page for Intro to A&P' and includes the text: 'This is where you can view and complete assignments, view announcements, and check your grades for Intro to A&P.' Below this is a list of assignments:

<input type="checkbox"/>	Skeletal System	
<input type="checkbox"/>	Circulatory System	
<input type="checkbox"/>	Skin Structure	08/16/18 - 10/31/18
<input type="checkbox"/>	Nervous System Introduction	08/16/18 - 10/31/18
<input checked="" type="checkbox"/>	Eye Dissection Quiz	08/16/18 - 10/31/18

Visible Body Courseware

You can also click on “Calendar” in the left menu to see your assignments. Click on any assignment to access it.

The screenshot shows the Visible Body courseware interface. At the top left is the logo "VISIBLE BODY" and the user name "Peggy Anderson". The top right shows the email "lora.sandhusen@visiblebody.com" and a help icon. The main header displays "September 2019" with navigation arrows and view options for "Today", "Week", and "Month". A search bar is located below the header. On the left is a navigation menu with items: My Courses, Assignments, Calendar (highlighted with a blue circle), Course Resources, Gradebook, Announcements, Invite People, Manage Class Roster, Instructor Resources, Question Bank, Quiz Bank, and My Apps. The main content area is a calendar grid for September 2019. The calendar shows days from Sunday to Saturday. Assignments are listed for several dates: September 13 (Getting Started ...), September 20 (VB eBook: Prefix...), September 27 (Graded Quizzes ...), and September 4 (Modules - Tissues). A "Draft Assignments" toggle is visible on the right side of the calendar.

SUN	MON	TUE	WED	THU	FRI	SAT
1	2	3	4	5	6	7
8	9	10	11	12	13 Getting Started ... 1 more...	14
15	16	17	18	19	20 VB eBook: Prefix... 3 more...	21
22	23	24	25	26	27 Graded Quizzes ... 4 more...	28
29	30	1	2	3	4 Modules - Tissues	5

Visible Body Courseware WEB APPS

Launching the Web Apps

The first time you launch the application, our detailed anatomical models may take several minutes to download. After loading, navigation is instantaneous.

To minimize initial load times:

- Stay on the page while it loads
- Use Firefox, Chrome, or Safari (v10 or later)
- Exit other applications and close other browser tabs
- [Clear browsing history](#)
- Confirm computer operating system: 64-bit Windows 7/8/10 or Mac OS X 10.10 or later
- Confirm internet download speed of 30 Mbps or higher - www.speedtest.net

Visible Body Courseware WEB APPS – Human Anatomy Atlas

[Zooming, dissecting, and rotating the 3D model](#)

- Left click on the model to rotate.
- Hold down the spacebar and drag the mouse to move the model.
- Scroll up and down on the mouse to zoom in and out
- Double-click on the model to zoom in on and center the object on the screen
- [Advanced Keyboard Controls](#)

How to access detailed information on any structure

Select a structure and its content box appears. Click on:

- the caret to view the hierarchy
- the book icon for a definition.
- the stethoscope icon for related pathologies
- the speaker icon for the English language pronunciation.
- the blast icon to add surrounding anatomical structures.
- the isolate icon to view a structure with all surrounding anatomy removed.
- For bones, the bony landmark icon for detailed landmark information.
- For muscles, the red pin icon for information about the muscle's origins and insertions, blood supply, innervation, and actions.

.

How to find systems or structures

While in a 3-D view, use the Anatomy Search box to highlight or add a structure.

Click on the Systems icon to select and add different systems.

The hierarchy breadcrumb trail shows more of the same system.

Click on the Radial Blast button to add different systems

Visible Body Courseware MOBILE APPS

Your Courseware subscription includes mobile versions of Visible Body's most popular apps to use as references. Each Visible Body mobile app may be downloaded to one device (phone or tablet), one time. These apps are yours to keep. There is no time limit!

- While in Courseware, select "My Apps" from the menu on the left.
- Write down the activation credentials (username and password) listed in the "My Mobile Apps" section. You'll need these to download your apps.
- Select the appropriate **Share link** for App Store or Google Play and enter your email address. Then hit send.

The screenshot shows the 'Courseware' interface. On the left, a menu has 'My Apps' circled in red. The main content area is titled 'My Web Apps' and lists four apps: 'Anatomy & Physiology', 'Human Anatomy Atlas', 'Muscle Premium', and 'Physiology Animations'. Below this is the 'My Mobile Apps' section, which contains a red circle around the activation credentials (username and password). At the bottom, there are 'Download on the App Store' and 'GET IT ON Google Play' buttons, each with a 'Share' link circled in red.

MOBILE APPS – Human Anatomy Atlas AR

Using Augmented Reality Mode

- Select a 3D model view in the Human Anatomy Atlas mobile app and turn on Augmented Reality mode.
- Scan the environment to find a flat surface; a yellow target will appear. Tap the target to place the model.
- Drag two fingers on screen to reposition
- Use one finger to rotate
- Pinch open or close to zoom
- Select a structure to access additional information and features
- Select reposition to place the model on a new surface.
- Deselect Augmented Reality to exit AR mode.
