

Capturing Screenshots on zSpace

Students can capture screenshots when they are working on the zSpace.

To capture a screenshot:

1. Students select and hold down the Windows key followed by the Print Screen key.

Students can then insert their screenshots into presentations and documents.

To locate your screenshot:

1. Open the Windows folder. 
2. Select "This PC."
3. Select "Pictures"
4. Select "Screenshots."

- The alt-tab keys can be used to toggle between an open document and a zSpace application.
- Students can add images to Paint to add more information or crop the image.
